

**DESCRIPTION**

- 80% spare parts are produced in our factory. We can control the quality and the cost originally.
- The electric motor is totally in cooper motor, which has good electrical conductivity and insulativity.
- The protection grade is IP40
- Reduction box gear designed in high accuracy has lowered operating noise greatly.
- Spare parts in ABS plastic is anti-oil, anhti-corrosion and safety.

- Working grade: S3-25%-10min
- Aircraft anti-rotation Wire rope
- Every hoist has passed overall test
- More than 10000 pcs daily output 1 for prompt delivery
- With upper limit position
- Heat treated and forged hook with safety latch
- S rem ote control and hoist frame are optional
- Approved by TUV CE standard
